Organic, natural and highly effective in optimising growth conditions for maximum quality and yield.

Helps to encourage the growth of beneficial bacteria on plant foliage and roots.

Emerald® Pro benefits plants with increasing sugar content, root mass, uniform ripening, stronger leaves and increased yield.

Emerald® Pro has been demonstrated by external universities to increase performance, marketable grade and root growth. It has also been shown to mitigate environmental stresses including drought, heat and salinity stress.

Designed for foliar and fertigation applications.
