

# Photon

Permanent turf paint with UV absorption.  
For use on turf to restore colour to pale  
or damaged grass, enhancing colour  
following seeding or turfing and  
during periods of dormancy

1 Litre e

## Directions for use

325/15

The quantity of product is dependent on the required effect and the coverage will depend on type and condition of grass being treated. 2.5 litres of product will treat approximately 1 hectare of turf. Before application, cut turf to desired height. Low water volumes are required to help the product stick to the leaf blade.

## Application

Apply through conventional hydraulic application equipment e.g. vehicle mounted or knapsack sprayer, preferably fitted with fan jets to produce a medium fine spray. Half fill the spray tank with clean water, add the required amount of Photon and agitate thoroughly. Add the remainder of the water.

Area of use	Photon vol.	Water vol.	Area treated
Golf greens and tees	0.1 – 0.25L	15 – 20L	500m <sup>2</sup>
Bowling greens, cricket squares	0.3 – 0.75L	40 – 60L	1500m <sup>2</sup>
Gold fairways, sportsfields	2 – 5L	300 – 400L	1ha

## Precautions

Avoid overlapping and application to absorbent areas such as on concrete paths, marble etc where colour is not required. Protect from frost. Do not apply in periods of stress conditions, e.g. frost, heavy rainfall, extreme heat and drought.

## Health and safety

Do not get in eyes, on skin or on clothing. Use personal protective equipment as required.

**If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
