5L e

A Proprietary Water Conditioning Agent

**FOR USE WITH AGRICULTURAL/
HORTICULTURAL/FORESTRY SPRAYS**

SAFETY INFORMATION

Warning

Causes skin irritation.

Causes serious eye irritation.

May cause respiratory irritation.

Avoid breathing spray. Use only outdoors or in a well-ventilated area.
Wear protective gloves/protective clothing/eye protection/
face protection.

IF ON SKIN: Wash with plenty of soap and water.

IF INHALED: Remove victim to fresh air and keep at rest in a
position comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
Call a POISON CENTRE or doctor if you feel unwell.

If skin irritation occurs: Get medical advice/attention. If eye
irritation persists: Get medical advice/attention. Take off
contaminated clothing and wash before reuse. Store in a well
ventilated place. Keep container tightly closed.

The (COSHH) Control of Substances Hazardous to Health Regulations may apply to the use of this product at work. Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment: WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS), SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (FACESHIELD) when handling the concentrate. However engineering controls may replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection.

Where the personal protective equipment specified on the X-CHANGE label is different to that specified on the pesticide label, the highest level of protective equipment must be worn.

FORMULATION

A soluble concentrate formulation containing a proprietary blend of water conditioning agents, acidifying agents, pH buffers and an anti-foam.

RATES OF USE

X-Change is recommended for use up to a maximum concentration of 0.25% dilution of the final water volume example:-

| Water Volume | Required Quantity of X-Change 0.25% |
|---------------|-------------------------------------|
| 100 litres/ha | 250 ml |
| 200 litres/ha | 500 ml |

MIXING

X-Change must be added before the pesticide.

1. Half-fill spray tank and begin agitation.
2. Add the correct quantity of X-Change for the final water volume.
3. Continue filling the spray tank to the required volume, adding the pesticide(s) as directed.

DIRECTIONS FOR USE

X-Change can be used with all pesticide sprays on all crops, at all timings, where water conditioning or pH adjustment is required.

X-Change is recommended with e.g. the following products/product groups :-

- All approved formulations of glyphosate.
- All approved uses of 'dim' and 'SU' herbicides.
- All approved uses of organophosphorus insecticides and pyrethroids.
- Salt formulations of phenoxy acid herbicides.
- Regalis and Canopy (follow the BASF recommendations).
- Atlantis WG and Pacifica (follow the Bayer recommendations).

CONDITIONS OF SUPPLY

All goods supplied by us are of high grade and we believe them to be suitable, but as we cannot exercise control over their storage, mixing or use, all conditions and warranties, statutory or otherwise as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us for any damage or injury whatsoever arising from their storage, handling, application or use.

X-Change is a registered trademark of De Sangosse Ltd
All other trademarks are acknowledged.
